INDIA PARTNERSHIP JOURNEY

NEW DELHI & BANGALORE

January 9, 2023

NO ONE CAN IGNORE INDIA TODAY

India has the conditions in place for an economic boom fuelled by offshoring, investment in manufacturing, the energy transition and the country's advanced digital infrastructure. Morgan Stanley reports that India will be the world's third-largest economy and stock market by the end of the decade.

India is also the number 1 alternative to investment in China and a stepping-stone towards the promising markets of Middle East and Africa.

THE PARTNERSHIP JOURNEY

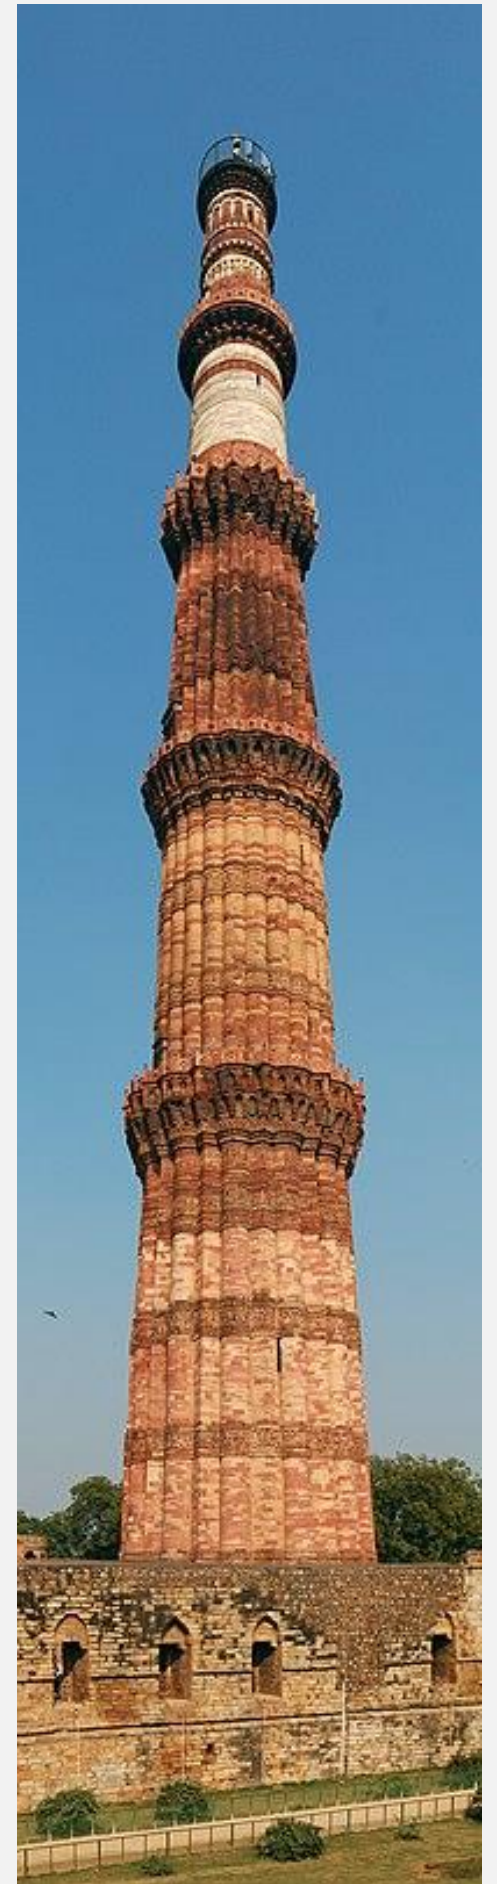

India Partnership Journey is a unique event to take you beyond and provide a deeper look at India's potential. This is an insightful insider's journey specially designed by our highly connected Indian team.

Whether you are in a leader at a multinational company, or an investor contemplating new developments or shifting of portfolio toward India, this is an opportunity not to be missed. And if you simply want to observe the changing world from a different perspective, you are welcome.

Participants will greatly enhance their understanding of India, if not the world, and expand their international network.

- Arrive in Delhi by midday.
- Settle into your hotel and get ready for an escorted afternoon tour of India's capital city and its magnificent Lutyens architecture
- Get to know our Indian organizing team as well as other participants of our international group
- Review the detailed program of the journey
- Attend a dinner presentation from a renowned speaker: "All you need to know about India before you realize you have missed the point"

- Attend three unique conferences and roundtables:
 - What India is doing to attract foreign investment, by highly ranked officials and government representatives
 - What successful foreign companies are achieving in India, by the Head of the French foreign trade organization and top executives from selected companies
 - What works and what is to be avoided, by highly experienced professionals from leading professional service firms
- Participate in company field visits and understand why sourcing products and services from India makes total sense today
- Meet the business community at an exclusive evening reception by a Chamber of Commerce

**It is not just
India's decade,
It is India's
Century**

**– Bob Sternfels,
McKinsey**

- Attend a privileged session on sustainability and understand how India is a major contributor driving climate change business opportunities
- Hear from business leaders how companies invest in different ways and find out what is applicable to you
- Share views about partnerships with Johan Andersson, a long-time consultant and well-known author of "Doing business in India, a Swede's experience"
- Fly out to Bangalore on one of the reserved evening flights and enjoy a special treat on board

**India is among
top 5 countries
on Climate
Change
Performance**
- CCPI, 2023

- Start at breakfast with NASSCOM, the premier Information Technology association in India and learn why India is at an inflection point right now
- Attend presentations of successes and failures of start-ups directly from the corporate C-suite
- Meet with a technology giant to experience the scale and ambition of their Indian operations and understand how they benefit from the innovation ecosystem of India
- Convene at a vibrant Bangalore dinner venue and dive into modern India and its youthful demographics

**China then,
India Now**

- Forbes

- Hear how an industry giant unpacks the power of digitization in India
- Discover latest Indian breakthrough projects in Technology, Life Sciences, Finance, Defense and Space
- Visit a university campus and get to know how India's education infrastructure contributes to the deployment of a world class entrepreneurial ecosystem
- Unlock the key to the Indian unicorn story with a no holds barred discussion with the Investor Community. You will meet the full spectrum of investors, from angel investors to venture capitalists
- Meet at the brand new Museum of Art and Photography for cocktails prior to a night flight back (or an optional night at your hotel should you wish to extend your stay in India)

**India is showing
intense Tech
usage, #2 in the
world on Github**

**- Satya Nadella,
CEO, Microsoft**
